OFFICIAL GROUP 3600

Dear Sir:

In response to the office action mailed on 01/03/2002:

Kindly amend the claims as follows:

1. A plant stand, comprising:

at least one vertical support communicating in a removable manner with the earth;

an indentation on said at least one vertical support;

a bend on said at least one vertical support so that the user may apply pressure with their foot to insert said one support into the ground;

at least one ring attached to said at least one vertical support; and

a ridge on said at least one ring, said ridge protruding from said at least one ring and in communication with said indentation on said at least one vertical support.
